Issue 22 - December 2000

Hawk Clean and Coat is a division of MONITOR DISTRIBUTORS

## Christmas Greetings

### Merry Christmas

The management and staff at Hawk would like to take this opportunity to wish you and your staff the very best festive season. We would like to thank all our friends for a wonderfully prosperous year, and look forward to even better times ahead.

## Product in Focus

### The New 350 Bar Hawk Pump

In the Hawk range we now have a pump that will deliver 21L/min at 350 bar. The main innovations in this pump are a "beefed-up" crank, crankcase and head, as well as some modifications to the valves. The conrods are manufactured from special bronze, with a bigger diameter gudgeon pin, to bear the extra

load. This pump compliments the HC930 pump which delivers 18L/min at 300 bar.

## What's New

### Double Foaming Unit

The compressed air operated foaming unit is specially designed for cleaning applications where it is necessary to apply thick foam. The unit pictured here was made specifically for a customer who required double the volume of foaming liquid.

Apply high density foam to large areas quickly.

## News From Abroad

Each year Gavin Pote goes to Europe to their annual industrial trade show, to visit our suppliers and to investigate any possibilities of new ventures. This year was no different to any other, we have brought home some very exciting new ideas, and developments to the range we already have on offer.

## Meet Our Staff

### The Stores Team

This is the team that manages the stores. From left to right: Mohammed Latif, John Veitch, Nomusa Dlamini and Bongani Zuma.

## Humour

*Well, you complained about the sh-- you got for Christmas last year.....!*

*Merry Christmas and a Happy and Prosperous New Year!*

**"Control your thoughts and you will control your life."**

# Versatile, durable and affordable guns
