Issue 21 -November 2000

Hawk Clean and Coat is a division of 

## What's New

### Sirai Solenoid Valves

The Sirai Solenoid Valves have recently been added to the Clean and Coat product line. These come in a variety of shapes and sizes for air, water and chemicals, the largest of which being 2" (50mm).

The valves are available in 2-, or 3-way, normally open or normally closed, direct acting or pilot operated, voltages can be AC or DC, 12V, 24V, 110V or 220V.

Come and visit our new and improved website

We have spent the last month updating our website, it now includes all our units, accessories, spares and all editions of the clean and coat news. We have also included colour photographs and breakdowns of all the units we offer. The

## Meet Our Staff

Devi Reddy has been working at Monitor since 1984. She was the first person to be employed after the business was purchased from Ted Woodward.

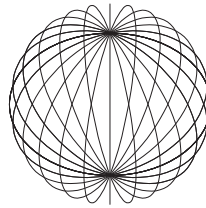

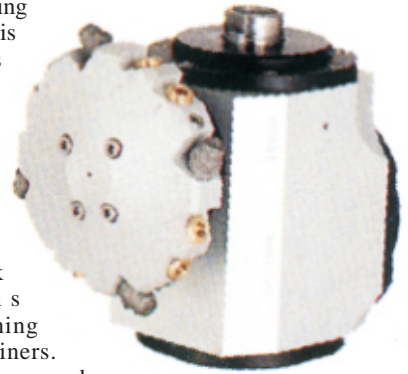

Devi knows the business from a grass roots level. Hers is the voice that you will hear when you phone in. Not only does she do telephone reception, but she also processes all the debtors invoices.

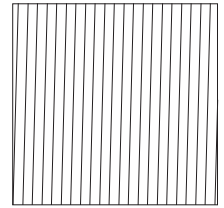

## Product in Focus

### Rotating Tank Cleaning Nozzle

The FV rotating tank cleaning nozzle is self propelled. This means that the head makes use of the water pressure, gearing, and braking system to generate the rotation at a fixed speed. The spray lines are almost vertical and are very close, as shown in the diagram. This type of tank cleaning head is recommended for cleaning medium to large containers. Models up to 400 bar pressure and

Result on flat surface.

Inevitably, their affair ended. Howard worried excessively about what the pack would think, and Agnes simply ate the flowers.

*"There is no greater harm than that of time wasted"*

## Versatile, durable and affordable knapsack spraying solutions

### Rosy

Rosy Knapsack sprayer is available with a brass or Nyplen pump. The plastic material of the tank is specially manufactured so as not to be effected by the UV rays of the sun. The special shape of the tank, with the absence of corners, allows total discharge and avoids the formation of residual deposits.

<b>Model:</b>	Rosy 22
<b>Capacity:</b>	22 L
<b>Tank:</b>	Plastic
<b>Weight (kg):</b>	8.26
<b>l x w x h (cm):</b>	38 x 47 x 53.5

Rosy 22 Sprayer

### Suprema

Suprema Knapsack sprayer with adjustable nozzle and stainless steel tank. High continuous spray can be achieved with the minimum of effort. Very little maintenance is required and the spares are inexpensive.

<b>Model:</b>	67367
<b>Capacity:</b>	17 L
<b>Tank:</b>	Stainless Steel
<b>Weight (kg):</b>	4.94
<b>l x w x h (cm):</b>	41 x 19.5 x 55

67367 Suprema Sprayer

### Vega 18

A really new model of sprayer. It's shape permits capacity and compactness. It's handiness is indisputable, the material used is of the best quality and is well checked. The air chamber is manufactured completely in brass or polyethylene.

<b>Model:</b>	Vega 18
<b>Capacity:</b>	18 L
<b>Tank:</b>	Plastic
