Issue 19 -September 2000

Hawk Clean and Coat is a division of MONITOR DISTRIBUTORS

## What's New

### The New Mini Hand Held Whirl-A-Way

We have just received a sample of a new mini Whirl-A-Way. This unit works on the same principle as the large floor and roof cleaning machines, but it is small enough to be hand held.

Because of its size, it can be used for cleaning small areas, like removing graffiti from walls.

### VaporAir

A few weeks ago, there was an article in the Sunday Tribune about a company called Nulu Manufacturing in Glen Anil. Apparently they had such a bad dust and odour problem, that it was causing great concern for the residents of Glen Anil who were calling for its closure. This case went as far as the magistrate court level.

problem. Six circular manifold rings were made by Monitor and, fitted with high pressure fogging nozzles, were attached to their cyclone stacks. Using a Hawk pump to create pressure, Ken Warwick fogged his VaporAir chemicals. The resulting fog cured the problem immediately. We now have happy residents in Glen Anil.

One of our customers, Ken Warwick Agencies cc in Hillcrest suggested that they, with their surfactant based chemical and Monitor with their fogging nozzles, could solve the

## Meet Our Staff

Paul Garnham started working at Monitor in 1983, as a technical sales representative. He is currently the Sales Director, and one of the three partners in the business.

Paul's vast knowledge of cleaning and spraying makes him a great asset to the company. He is well known by all his customers to be efficient, professional and friendly.

He specialises in the pulp, paper and poultry industries. But can solve problems in any field

Paul Garnham

## Product in Focus

### The Wet Sand Blasting Nozzle

The sand blasting nozzle is fitted to the front of a high pressure cleaner. The high pressure wet sand blasting unit could be used for removing rust, paint or concrete from surfaces, in preparation for repainting, or even for removing lines off the road.

The sand is wet, which means that there is no dust, and its consequential health risks.

There are several different size options available, depending on the volume and pressure of the high pressure cleaner being used.

### Watch out for the New Hawk 10

## Humour

*"If the rich could pay the poor to die for them, then the poor would make a wonderful living"*

## Versatile, durable and affordable high pressure accessories

### Roof and surface cleaning

The Whirl-A-Way system is unique in South Africa and can convert your Hawk high pressure cleaner into a roof or floor cleaning machine. This robust Hawk accessory comes in a 400mm, 450mm and 600mm diameters. The unique rotating nozzle system that is powered entirely by your Hawk high pressure cleaner.

Part No.	Max. Bar	Max. L/min	Coverage
1600WAW	300	23	16"
1800WAW	300	23	18"
2400WAW	300	23	24"

### Wet sandblasting

The Hawk sandblasting attachment gives your Hawk high pressure cleaner yet another versatile application. Simply by attaching the nozzle and probe arrangement to your Hawk lance you can cost effectively convert your standard Hawk high pressure cleaner into a robust wet sandblasting machine.

Nozzle Size Options mm	Max. Bar	Max. L/min
1.0, 1.2, 1.4, 1.5, 1.6, 1.8, 2.0	250	40

### Foaming lance

Foaming lances are a handy accessory to your Hawk high pressure cleaner. They allow you to apply a thick layer of foam onto the surface being cleaned. The amount of chemical dosed can be regulated to whatever your cleaning or disinfecting requirements are.

Nozzle	Max. Bar	Min. L/min	Max. L/min
H3/8U40150	60	10	25

### Tank and drum cleaning

The Roty18 is specifically designed to clean small to medium tanks or drums. As an attachment to your high pressure cleaner it is capable of operating at pressures up to 150 bar and volumes up to 18 l/min. This makes a versatile accessory to your Hawk High Pressure Cleaner. Transformer included.

Part number	Max. L/min	Max. bar	Max. Temp °C
Roty18	18	150	90

Fits through hole: 40 mm  
Nozzles: 2  
Material: Stainless Steel  
Electric motor: 12V  
Seals: NBR  
Power supply: 220/240V 50Hz

### Tube cleaning

Tube cleaning nozzles can convert your standard Hawk high pressure cleaner into a powerful drain cleaning machine. Many other drain cleaning nozzle options are available in the Hawk range.

Part number	Type	Max. Bar	Connection	Weight g
25.1201.51	0,55 SS	200	G1/4M	24
25.1210.51	0,55 SS	250	G3/8M	36

### Other
