Issue 30 - August 2001

Hawk Clean and Coat is a division of  **MONITOR**
DISTRIBUTORS

What's New

New Apron to Hold Chemical Tank

A new apron is now available from Hawk to make those chemical application jobs a little easier. It is designed with a pouch in front, which can hold a 5 litre chemical container. This allows the person applying the chemicals, via a chemical injector or

foamer, to move around freely, without having to carry around a bucket or drum. The high pressure water, supplied by your Hawk high pressure cleaner which can be stationary while you're cleaning. The apron sells for an economical R86 + VAT.

Product in Focus

Water Saver

The water saver triggerless hose valve is perfect for any where that a hose is used. It is able to reduce water consumption by up to 50% as no tap ever has to be closed. With either hot or cold lines, water will only pass through the valve when pressure is applied to the end of the hose.

1) Pick it up - it's on

2) Drop it - it's off

Typical uses are: Cleaning abattoirs, dish washing in restaurant, butcheries and bottling plants. The water saver sells for R235 + VAT.

Come and visit our recently updated website. We have added more product information and spare part drawings are now available for nearly all our products. You can also view past issues of Clean 'n Coat News.

Meet Our Staff

Patrick has officially been a member of our workshop team since May 2000. Before then he helped us out by doing odd jobs when we needed him.

"He who argues to prove his wisdom, soon reveals his ignorance."

Versatile, durable and affordable
high pressure cleaning solutions

GKC2135S

350 bar, 21 l/min

Affordable Power

The Hawk high pressure pump range is capable of delivering pressures up to 350 bar and volumes up to 40 litres per minute. This makes them extremely versatile in their application. They are ideal for the manufacture of high pressure cleaning systems. Hawk high pressure pumps have proved themselves around the world. They are reliable, easy to use, easy to repair, and inexpensive. The plungers are ceramic and seals are self-lubricating.

Technical Data:

Model	Pressure (bar)	Volume (l/min)	rpm	Hp	kW	Kg
GKC3521S	350	21	1450	19	14	-

Affordable Power

The Hawk high pressure cleaner range is capable of delivering pressures up to 300 bar and volumes up to 40 litres per minute. This makes them extremely versatile in their application. By simply adding accessories you can convert your machine into a roof cleaner, sandblaster, drain cleaner or tank cleaner. At the heart of the system is the Hawk piston pump. Hawk high pressure pumps have proved themselves around the world. They are reliable, easy to use, easy to repair, and inexpensive. The plungers are ceramic and seals are self-lubricating.

Unique Guarantee

Precision engineering and the use of high quality materials have enabled Hawk in South Africa to give a comprehensive Guarantee to cover their products. A full one year's warranty covers the workmanship and materials against defects, while they are also covered by a unique spares guarantee. Should the required Hawk pump or accessory spare part not be available within 24 hours because of an out-of-stock situation, they will be airfreighted from the factory, and fitted, free of charge.
