Issue 35 - December 2001

Hawk Clean and Coat is a division of  **MONITOR**

## Christmas Greetings

### Merry Christmas

The management and staff at Hawk would like to take this opportunity to wish you and your staff the very best festive season. We would like to thank all our friends for making this a prosperous year, and look forward to even better times ahead.

Our Durban branch will be closed for our Christmas break from the 21 December 2001 to the 7 January 2002 and our Johannesburg branch will be closed from the 14 December 2001 to the 7 January 2002.

## What's New

### Airless Spray Painting Unit

The new Hawk 6500 airless spray painting machine is versatile, durable and cost effective. It can apply just about any material without the need for compressed air. The Hawk 6500 is perfect for coating large areas quickly and gives an excellent coverage with minimal over spray. It can support a 0.041" tip for highly viscous materials and delivers 7 litres per minute. The Hawk 6500 is ideal for coating large roofs and walls.

The unit includes 10m of hose, P500 spray gun, reversible tip, suction system, 5m of electric cable, a 220 volt plug and is mounted on a corrosion resistant stainless steel chassis.

This unit retails for about R18500.00

### RJ Southey

Richard from RJ Southey is posing next his new 350 bar Diesel Machine, which he recently bought from us.

## Product in Focus

### W850E spray system

The powerful 700 watt W850E spray system uses high volumes of very low pressure air to atomise paints and varnishes. It is designed for working with relatively high viscosity materials. It uses an air turbine instead of a compressor

to provide the air to atomise the paint. The paint jet is surrounded by an air envelope, which eliminates over spray. As the air is preheated in the turbine, it helps to avoid paint runs and helps to dry the paint faster.

Various gun settings are illustrated in the following sketches.

Circular Jet

Vertical Flat Jet

Horizontal Flat Jet

The W850E is intended for small area, scotch guarding, shop-fitting and touch-ups.

*"A poem is never finished, only abandoned."*

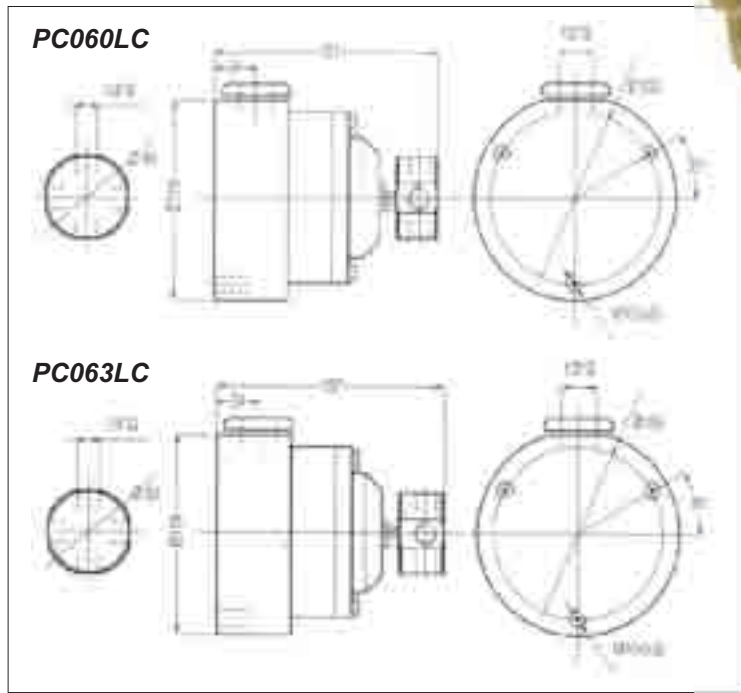

Versatile, durable and affordable  
tank cleaning solutions

# PW060LC PW063LC

The PW series rotating head is a self-spinning unit that is ideal for carwash and underbody washing application, or where automatic surface cleaning is required.

## Dimensions

## PC060LC

Pressure Range	30 - 200 bar							
Motor Nozzle	Ø3mm	Ø4mm	Ø5mm	Ø5mm	Ø6mm	Ø6mm	Ø7mm	Ø7mm
Flow	15 l/min	30 l/min	30 l/min	45 l/min	45 l/min	60 l/min	45 l/min	60 l/min
Speed	65 rpm	95 rpm	80 rpm	120 rpm	95 rpm	145 rpm	80 rpm	125 rpm
Weight	2.6 kg							

## PC063LC

Pressure Range	2 - 30 bar				
Motor Nozzle	Ø5mm	Ø6mm	Ø6mm	Ø7mm	Ø7mm
Flow	30 l/min	30 l/min	45 l/min	45 l/min	60 l/min
Speed	100 rpm	75 rpm	120 rpm	105 rpm	140 rpm
Weight	2.6 kg
