

## What's New

### New Road Marking Machine

In an effort to improve the road marking machine, and having listened to all our customers view points, we have made modifications to the road marking machine. The new Line Pro comes with a 4200 pump stainless steel head fitted and is belt driven.

The front wheels have been increased from 250mm to 400mm to improve stability and the quality of the line marked.

### Newal Generation

Mr Kissoon Newal (69), who recently died of a heart attack, is the father and grandfather of Danny and Vikesh Newal, who both work at Monitor in Durban, and is believed to be the man who made chutney music famous in the early 1950s.

As the long line of buses waited patiently to load passengers, Mr Newal boarded some of the buses and sang his blend of chutney songs, which were comprised from lyrics of various songs. Mr Newal's only instrument was his mageera, which he had made from bicycle bells. Our condolences go out to the Newal family.

Mr Kissoon Newal

### Staff

Although Vikesh Newal has only been working at Monitor for three months, he has shown a promising skill at making up new machines. If he is as hard working and friendly as his father, Danny, he will go a long way with Monitor.

## Product in Focus

### Multipurpose Water Gun

The industrial water gun is a heavy-duty item available with a brass, chrome plated brass, or a full stainless steel (316) body. It has stainless steel rivets, insulated stainless steel trigger handle, reinforced trigger and a robust blue or white EPDM rubber casing for impact protection. The water pattern is adjustable from a fine spray to concentrated jet.

There is also a lance mounting available in chrome plated brass or in stainless steel, designed for ease of cleaning, for those places where a hand held easily controllable jet of water is required. It can also be used for foaming applications. The shut-off is automatically engaged when the trigger is released and you can adjust the water volume by turning a finger screw on the rear of the gun.

## Humour

*"Our life is what our thoughts make it."*

# Versatile, durable and affordable pumping solutions

EP = Outlet in plastic

EX = Outlet in brass

Types	E4	E4R	E5	E5D	EK	EK2	E7	E77	E8	E8S	E8R	E8LT
