Hawk Clean and Coat is a division of **MONITOR** DISTRIBUTORS

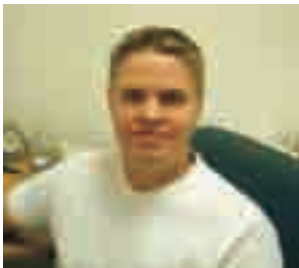

What's New

New circuit board for Hotbox

The Hawk Hotbox is continually being improved. Components, when a better quality has been sourced, are upgraded. The aim to have the best, safest and most reliable machine on the market. With this in mind, we have designed a new circuit board which eliminates messy wiring and reduces the chance of errors being made during assembly. The same can be said for the plumbing where we have designed a purpose-made stainless steel manifold.

Hawk Crime Busters

Craig Todd

Doc

In the middle of September our Durban office was broken into and nine high pressure cleaners and various other items were stolen. Two weeks after that, through some clever detective work by Doc and Craig, we managed to recover two machines and two arrests were made. The police are still following leads and we are hoping to recover more equipment and make more arrests.

Staff

Nomusa Dlamini, has been a part of our stores team since January 1991. We would like to congratulate her on the birth of her baby girl, Precious, who was born of the 23 August 2001. Nomusa is now taking a well earned break and will be back at work in November.

Product in Focus

High Pressure Cleaning Power

The Hawk unit pictured here is a new version. Using a 17kW diesel engine with electrical start, this machine produces 21 L/min at 350 bar.

Humour

"And so, without further ado, here's the author of *Mind Over Matter...*"

"When faced with a problem - adopt the attitude that you can, and will, succeed in solving it."

**Versatile, durable and affordable
high pressure cleaning solutions**

12 l/min, 140 bar

The new P/V12-140 High pressure cleaner unit is designed to handle the robust South African market at an affordable price. With the use of a vertical mount system Hawk has been able to reduce the overall cost of the system while still maintaining the cleaning power of 12 l/min at 140bar. The system is ideal for outside contract work power supply is not easily available.

Technical Data

Model:	P/V12-140
Maximum Pressure:	140 bar
Maximum Flow Rate:	12 l/min
Motor Power:	6.5 hp
Motor Model:	Briggs & Stratton Intek OHV Vertical Shaft
Pump:	HV335
Supplied with:	Stainless steel wheeled chassis, suction filter, VBS unloader valve, quick prime ball valve, 3m suction and bypass hose (internal bypass optional), 10m high pressure hose, gun, lance and nozzle.

Affordable Power

The Hawk high pressure cleaner range is capable of delivering pressures up to 300 bar and volumes up to 40 litres per minute. This makes them extremely versatile in their application. By simply adding accessories you can convert your machine into a roof cleaner, sandblaster, drain cleaner or tank cleaner. At the heart of the system is the Hawk piston pump. Hawk high pressure pumps have proved themselves around the world. They are reliable, easy to use, easy to repair, and inexpensive. The plungers are ceramic and seals are self-

Unique Guarantee

Precision engineering and the use of high quality materials have enabled Hawk in South Africa to give a comprehensive Guarantee to cover their products. A full one year's warranty covers the workmanship and materials against defects, while they are also covered by a unique spares guarantee. Should the required Hawk pump or accessory spare part not be available within 24 hours because of a out-of-stock situation, they will be airfreighted from the factory, and fitted, free of charge.
