Issue 43 - September 2002

Hawk Clean and Coat is a division of  **MONITOR**
DISTRIBUTORS

What's New New Petrol Units

A new range of low cost petrol units is now available from Hawk. Units are available in either a direct coupled high speed pump version or a slower speed pump using belts and pulleys to couple to the motor. The mPressures range from the small 140bar unit (pictured top) up to a 200bar unit (pictured below) with volumes from 12l/min to 18l/min. The petrol units are ideal for sites where poor or no power supply is available such as building sites and remote areas, or where more cleaning power is needed, but 380V power is not available

The P11-140 which is the smaller unit in the range will priced at an especially low R8800.00 +VAT for any orders placed before the end of October.

Join us at the Pig and Poultry Show

We will be exhibiting at this year's Pig and Poultry Show on 4 & 5 September. So come and see us. On display will be the Hawk range of high pressure cleaning equipment, foaming and disinfecting systems, sanitising units, and evaporative cooling systems. We will also be conducting demonstrations of disinfectant / detergent foaming at 10 am and 2 pm on both days.

Staff

Jeffrey Ngoma helps around our workshop. He has an excellent attitude and is always ready to give you a smile. He has been working at Monitor since September 1997.

Product in Focus Safety Showers

Safety in industry is a very serious and important issue, especially when toxic chemical or fire is a concern. Hawk has been involved in the design and development of safety showers and eyewash bowls for more than twenty years. Safety showers are used to drench a person who has come in contact with a chemical or substance that requires quick removal. The units are easy to operate and are manufactured in stainless steel making them extremely durable. Many different versions are available, including u-type showers which wash from all angles. Systems can even be designed to suite the customers specific needs. Free standing eyewash bowls or bowls attached to the shower are also available, these are handy for flushing any foreign substances quickly from the eyes.

Affordable Cleaning Power

The new P12-140 petrol High pressure cleaner unit is designed to handle the robust South African market at an affordable price. It comes with a direct coupled high speed pump which delivers 12 liters per minute at 140 bar. The petrol units are ideal for sites where poor or no power supply is available such as building sites and in remote areas.

Many other models are available in the Hawk high pressure cleaner range including units capable of delivering pressures up to 300 bar and volumes up to 40 litres per minute. This makes them extremely versatile in their application. By simply adding accessories you can convert your machine into a roof cleaner, sandblaster, drain cleaner or tank cleaner. At the heart of the system is the Hawk piston pump. Hawk high pressure pumps have proved themselves around the world. They are reliable, easy to use, easy to repair, and inexpensive.

Unique Guarantee

Should the required Hawk pump or accessory spare part not be available within 24 hours because of an out-of-stock situation, they will be airfreighted from the factory, and fitted, free of charge.
