Issue 65 - December 2003

Hawk Clean and Coat is a division of **MONITOR** DISTRIBUTORS

Merry Christmas

The management and staff at Hawk would like to wish you and your family a joyous and prosperous festive season, and thank all our valued customers for making 2003 such a successful year. We look forward to a bright economic outlook for the new year.

The Durban and Johannesburg offices will be closed from Monday 22 December and will re-open on Monday 5 January.

New Catalogue

The new Hawk Catalog is now available. It contains comprehensive information on the complete product range and is also available on a CD for your computer. To order your copies please e-mail your contact details and postal address to Shereen on shereen@cleanandcoat.co.za.

Five Piston High Pressure Pumps

A revolutionary new pump is now available. It is a five piston high pressure pump, giving larger volumes with less pulsation at half the price of its competitors. Pressure options range from 200 to 500 bar and volumes from 19,5 to 70,6 l/min. Samples of the 70 L/min 200 bar and 35 L/min 350 bar pumps are on the water and continuous stock will be available in the new year.

New Rotating Nozzles

The new Hawk rotating nozzle has just arrived. It makes use of a rotating solid stream nozzle which delivers the extra impact and cleaning power of a solid stream nozzle, while the high speed rotation creates a spray pattern giving larger coverage. This gives you the best of both worlds and can increase cleaning efficiency by as much as 80%. Various sizes are available and the current model is capable of handling pressures up to 200bar, while a 350 bar version will be available in the new year. A new closed robust casing makes the new nozzle far more durable than previous models.

Gavin, Danie and Cammy recently went to Italy to visit the EIMA show, a huge agricultural show just outside Bologna. Thousands of exhibitors where displaying the latest technologies in various fields and they have come back with excellent ideas and new products, so watch this space. The trip also included visits to some of the major tourist sites.

"Nearly all men can stand adversity, but if you want to test his character, give him power."

**Versatile, durable and affordable
high pressure cleaning solutions**

Model	Pump	Motor	L/min	Bar	Coupler	Chassis Type
P/11-140	PL3.0-20T	Kama 5,5hp	11	140	Direct mount	Small
PV/12-140	HV335	B&S 6,5hp vertical	12	140	Direct mount	Small
P/14-120	HC370	EY20DU	14	120	Belts and pulleys	Medium
P/14-150	HC370	EH25DU	14	150	Belts and pulleys	Medium
P/15-170	ML4.0-32W	Kama 9hp	15	170	Direct mount	Small
P15/170	HC500	Kama 9hp	15	170	Belts and pulleys	Medium
P/15-200	ML4.0-32W	Kama 13hp	15	200	Direct mount	Small
P15/200	HC500	Kama 13hp	15	200	Belts and pulleys	Medium
P/18-200	ML5.0-35W	Kama 13hp	18	200	Direct mount	Small
