

What's New Power Supply Timer and Counter

Hawk has recently developed a timing and counting device for the carwash market. The unit was designed to be mounted on the wall and supply power to a vacuum cleaner. Once the start button is pushed the counter will count one, switch on the power and start timing for a predetermined amount of time. This allows carwash owners to ensure that vehicles are cleaned timeously and that the number of cleans balances with the daily takings. Multiple power units on separate timers and counters are also available.

Kappa 100 Stock Clearance Sale

We are in the process of clearing stock of the Kappa 100VA diaphragm pump. We ordered some for a customer who then couldn't take up his order.

Until the end of June they will be available at R 3375.00 +VAT, which is below cost for us.

The Kappa100 is a diaphragm pump capable of delivering 100 l/min at 40 bar pressure.

Product in Focus New HawkVac

Samples of the new HawkVac range have arrived. We are currently appraising three models:

Sabrina Foam

The Sabrina Foam is designed specially for the auto valet market. The system sprays a relatively dry foam on the surface to be cleaned. When the foam is vacuumed, it leaves an "almost" dry surface. Unlike other machines, this foam does not penetrate past the surface of the textile, which results in short drying times.

Injection of foam

Detergent Action

Vacuuming of dirt

Sabrina Max

The Sabrina Max is ideal for cleaning carpets and upholstery. They are strong, compact and easy to carry. This machine is perfect for cleaning contractors.

Sharon

The Sharon is an innovative water/extraction machine, designed for the professional cleaning of small areas of hard floors and tiles. It is also possible to use Sharon with a hand tool, to clean upholstery, inside of cars, stairs and hard to reach areas.

The HawkVac's are constructed of thick, high density polyethylene and are robust, perfectly suited for the South African market.

Humour

Versatile, durable and affordable cleaning equipment

SABRINA FOAM

Injection of foam

Detergent Action

Vacuuming of dirt

- Recovery tank capacity 14 litres
- Solution tank capacity 14 litres
- Vacuum motor 1000 watt
- Vacuum strength 2 stages, 2200mm H₂O, 3000 L/min
- Pump with bypass Vibrating - 70W, 4bar (max), 1,5 L/min (max)
- Air compressor 350 watt
- Maximal performance 20 - 30 seats/hour
- Solution consumption 30 - 40 ml/seat
- Number of nozzles 1

Applications include cleaning of padded seats in trains, buses, planes, cinemas, theaters, cars, etc.

SABRINA MAXI

- Recovery tank capacity 30 litres
- Solution tank capacity 30 litres
- Vacuum motor 1200 watt
- Vacuum strength 2 stages, 2300mm H₂O, 3600 L/min
- Pump with bypass Membrane - 80W, 9bar (max), 4,5 L/min (max)
- Cleaning width 300mm
- Maximal performances 80 m²/h
- Number of nozzles 3

Applications include cleaning of upholstery and carpets

SHARON

Cleaning of carpets

Cleaning of hard floors

- Recovery tank capacity 12 litres
- Solution tank capacity 12 litres
- Vacuum motor 1000 watt
- Vacuum strength 2200mm H₂O, 3000 L/min
- Pump with bypass 70W, 3,5bar (max), 1,5 L/min (max)
- Max performance 150 m²/h
- Number of nozzles 1

Designed for the professional cleaning of hard floors and tiles
