

What's New

Five Piston High Pressure Pumps

A revolutionary new pump will soon be available in South Africa. This first is a five piston high pressure pump, giving larger volumes with less pulsation at half the price of its competitors.

Pressure options range from 200 to 500 bar and volumes from 19,5 to 70,6 l/min. The new range is expected to be available in July this year.

General Purpose Electric Sprayer

A customer asked us to design and fabricate a portable electric sprayer for applying medication chemicals to animals. The end result is pictured here. The tank holds 250 litres and the pump operates from 220V, although a 12V version with battery and charger is also available.

Staff

John Veitch has been heading up our stores department for the last 5 years. He ensures that our stores team works efficiently and makes an impression on the people that he meets. Coming from a stock control automotive background, he is well qualified.

Product in Focus

Hawk 11000 Airless Spray Painting Unit

The "Big Daddy" of the Hawk airless range of spray painting units is now available. The Hawk 11000 is capable of supporting a massive 0.052" tip which means its can spray even the thickest of materials. It can also be used for supporting a two gun operation on lighter materials. The new unit is exceptionally well priced when compared with its competitors and comes supplied on a stainless steel chassis with suction system, 10m high pressure hose, airless gun with reversible tip.

Humour

"Sometimes inferiority is simply the lack of information."

Versatile, durable and affordable cleaning and coating solutions

HIGH PRESSURE CLEANING SOLUTIONS

Large range

The Hawk high pressure cleaner range is capable of delivering pressures up to 400 bar and volumes up to 40 l/min. This makes them extremely versatile in their application. By simply adding accessories you can convert your machine into a roof cleaner, sandblaster, drain cleaner or tank cleaner.

Unique lifetime spares guarantee

In addition to the factory guarantee, Hawk will fit spares free of charge if you have to wait more than 24 hours because of an out-of-stock situation.

Hot Box

An exciting new design has been used for the locally manufactured high pressure water heater. Connected to a normal cold water high pressure cleaner unit, the hot box provides high pressure hot water to remove heavy grease and dirt.

Custom Design

Hawk can custom design units to suite your particular requirements. Units up to 1200 bar and fixed installations can be built to order.

- Pressures up to 400bar
- Petrol, diesel or electric
- Built in South Africa
- Unique 24hr spares guarantee
- 25 Years of experience

AIRLESS SPRAYPAINTING SOLUTIONS

- Tips up to 0.052"
- Petrol, diesel or electric
- Built in South Africa
- Spray 600m² per day

Versatile and cost effective

Hawk airless spray painting machines are a versatile, durable and cost effective way of applying just about any material in just about situation, without the need for compressed air. They are perfect for coating large areas quickly and quietly while giving excellent coverage, with the minimum of over spray, saving both time and money. Cover up to 600m² per day.

Large range

Petrol and 220 volt electric versions are available and both are supplied ready-to-run on a corrosion resistant stainless steel chassis. The unit includes 10m of high pressure hose, airless gun, tip and suction system.

Road / line marker

The Hawk PRM is perfect for marking roads, sports fields, garages, schools, parking lots or factories.
