

## What's New Carwash Boom

A new stainless steel carwash boom is now available from Hawk. Versions include a single or double boom types and both are manufactured in corrosion resistant stainless steel. Both units are designed for overhead mounting, giving 360° of motion while the operator is working. This makes vehicle cleaning quicker and easier and reduces wear on hoses by keeping them off the floor. A 180° wall mounting bracket is also available for installations that can't facilitate overhead mounting. The upper boom can handle 200 bar whilst the lower one is low-pressure rated for foaming or brush/chemical use.

## Solving Special Cleaning Solutions

Hawk was recently asked to design a custom cleaning system for a particular difficult application in a brewery. The six units are designed to be wall mounted and each contain two 15 l/min 200 bar high pressure cleaning pumps. A header tank

with low level cut out was also fitted. A unique payment plan was worked out between Hawk's Directors and the brewery, involving an undisclosed amount of beer.

## Staff

Malinda Pote joined Monitor in 1984 as a debtors clerk, and since 1998 she has taken over the position of the accountant.

Here she demonstrates the importance of developing new "models".

## Product in Focus W-200 Textile Cleaning

The W-200 is a powerful textile cleaning gun which fits snugly in your hand. It accurately aims a jet of cleaning fluid from the nozzle which floats the spot out, instead of conventional rubbing and distributing it through the fabric. The pressure and is finely adjustable to prevent any shift in the weave, yet forcefully drive out the stain without a trace. It uses an electric piston pump and needs neither a compressor or compressed air.

The W-200 textile gun can be used on wool and cotton as well as silk and synthetic fibres.

### Performance figures:

Delivery:	170 ml/min
Max. viscosity:	80 DIN-sec
Voltage:	230V / 50 Hz
Power consumption:	60 W
Container capacity:	800 cm <sup>3</sup>
Weight:	1.7 kg
Pump cylinder:	Special steel
Piston:	Hard chromed

## Humour

*"Genius does what it must, talent does what it can."*

Versatile, durable and affordable  
high pressure cleaning solutions

PETROL  
**P11/140**  
11L/min @ 140 bar

### Affordable Cleaning Power

The new P12-140 petrol High pressure cleaner unit is designed to handle the robust South African market at an affordable price. It comes with a direct coupled high speed pump which delivers 12 liters per minute at 140 bar. The petrol units are ideal for sites where poor or no power supply is available such as building sites and in remote areas.

Many other models are available in the Hawk high pressure cleaner range including units capable of delivering pressures up to 300 bar and volumes up to 40 litres per minute. This makes them extremely versatile in their application. By simply adding accessories you can convert your machine into a roof cleaner, sandblaster, drain cleaner or tank cleaner. At the heart of the system is the Hawk piston pump. Hawk high pressure pumps have proved themselves around the world. They are reliable, easy to use, easy to repair, and inexpensive.

### Unique Guarantee

Should the required Hawk pump or accessory spare part not be available within 24 hours because of a out-of-stock situation, they will be airfreighted from the factory, and fitted, free of charge.
