

What's New New Kel-Cell Technology

The Kel-Cell system is an enhancement of the existing Hydra-Cell technology. In cases where poor inlet conditions could eventually lead to a diaphragm failure, Kel-Cell will prevent this from happening.

Kel-Cell controls the position of the diaphragm under a wide variety of adverse inlet conditions and provides a new degree of diaphragm rupture protection. It will greatly reduce the possibility of an incidental failure of a diaphragm, should an unforeseen problem occur, such as:

- ! inlet pipe partially or completely blocked,
- ! inlet filter partially or completely blocked,
- ! inlet shut-off valve partly or completely closed,
- ! inadequate liquid supply,
- ! excessively viscous fluid,
- ! inadequate discharge pressure,
- ! or any other conditions which result in excess vacuum conditions on the inlet of the pump.

Sheppy Show

We assisted Machine "O" with exhibiting some of our high pressure cleaning and airless spray painting products at this years Sheppy Show held in Port Shepstone.

Staff

We welcome Philomon who joined us about 3 months ago, as an assistant repairman. His father Hammond, his uncle Bernard, and his mother Janet, all work for the company.

Product in Focus

Flojet double diaphragm air operated pumps that cannot stall

G57 Series

- Pump:** Air operated positive displacement double diaphragm pump.
Flow rate: Up to 26,49 L/min.
Pressure: 1,4 to 8,3 bar (Same as inlet air pressure).
Ports: Liquid 1/2" and 3/4", Air 1/4".
Wetted parts: Body - Polypropylene
 Diaphragm and Check valves - Santoprene
 Springs - Hasteloy

5100 Series

- Pump:** Air operated positive displacement double diaphragm pump.
Flow rate: Up to 7,57 L/min.
Pressure: 1,4 to 5,5 bar (Same as inlet air pressure).
Ports: Liquid 3/8", Air 1/4".
Wetted parts: Diaphragms and valves - Buna, santoprene or viton
 Housing - Acetal copolymer
Self-Priming: Dry - 8,5m, Wet - 9,8m

Humour

Primitive spelling bees

"A ship in the harbour is safe. But that is not what ships are built for."

Versatile, durable and affordable roof & surface cleaning solutions

Technical Data

Part No.	Configuration	Max. Bar	Max. L/min	Coverage
WAW1600F	Handles & castors	300	23	16"
WAW1800F	Handles & castors	300	23	18"
WAW2400F	Handles & castors	300	23	24"
WAW1800R	Handles & large wheels	300	23	18"
WAW1800RNB	No Handles & large wheels	300	23	24"

Clean 1000m² Per Day

The new Whirl-A-Way cleaning system converts your standard Hawk high pressure cleaner into an effective roof and surface cleaning machine. The other options include a general surface cleaning model which is fitted with castor wheels making it extremely easy to move around and light on the operator. A brush fitted option is also available for areas where wheels are not practical. The units are capable of pressures up to 300 bar, which means they can be attached to most high pressure cleaners.

Unique Rotating Arms

The unit consists of two rotating flat or solid stream nozzles attached to two arms that rotate at very high speed to cover the entire area under the protective cover.

Special Roof Cleaning Option

With the specially developed corrugated roof cleaning option areas of 1000m² can be cleaned per day, saving man hours and money. The system is powered entirely by the high pressure water from your Hawk high pressure cleaner and does not require any addition power or water supply.

Powered by your Hawk High Pressure Cleaner

The system is powered entirely by the high pressure water from your Hawk high pressure cleaner and does not require any addition power or water supply.

Unique Guarantee

Precision engineering and the use of high quality materials have enabled Hawk in South Africa to give a comprehensive Guarantee to cover their products. A full one year's warranty covers the workmanship and materials against defects, while they are also covered by a unique spares guarantee. Should the required Hawk pump or accessory spare part not be available within 24 hours because of a out-of-stock situation, they will be airfreighted from the factory, and fitted, free of charge.
