Issue 70 - June 2004

Hawk Clean and Coat is a division of MONITOR DISTRIBUTORS CO

New Bumper Chassis

We have improved our standard electric high pressure cleaner chassis by adding a bumper. It helps to protect the motor from being knocked and damaged. Another advantage of this innovation is for lifting the unit for loading.

Printed High Pressure Hose

We are now going to be supplying all our high pressure cleaners with new high pressure hose. We have had our details printed onto the hose, which will make it easier for us to be contacted if there is a problem with the unit or for further orders.

New High Pressure Pumps

We are excited to introduce to you some new high pressure pumps. The new Penta-C27/500, GHC12/50S and GHC16/50S, all reach pressures of 500 bar. The GH series is a 3 plunger pump with integral ceramic plungers, while the PENTA 500 is a 5 piston plunger pump. These new pumps were introduced with the intention of filling a gap in the market by providing a high performing product at a comparatively low price.

GHC Series

PENTA 500 Series

RPM	Model	L/min	Bar	Hp	kW	Kg
1450	PENTA-C27/500	27	500	35	26.0	47
1450	GHC12/50S	12	500	15	11.0	23
1450	GHC16/50S	16	500	20	14.7	23

Well done, Doc!

Doc recently saved us from being scammed yet again! A person wanting a high pressure unit, phoned in and was helped by Doc who became suspicious when all that the customer wanted was an expensive machine, not worrying about any specifications. He told the potential customer that he needed to pay in advance. He was happy to do so. Later we got a phone call from him saying that his bookkeeper had made a huge mistake and instead of paying R16500.00, she had deposited R31500.00 and could we please transfer, electronically, the "extra money", R15000.00. It turns out that he had deposited a stolen cheque although the deposit slip faxed to us showed "cash" (cheque details tippexed out). Needless to say he didn't arrive to collect his machine.

Farewell, Craig

We are sad to say good-bye to Craig. He has been a great asset both in our Durban and Johannesburg branches. Craig was excellent at multi tasking, being both the Marketing and IT manager.

Craig and his wife Samantha

Not only was he good at his job, but he earned the respect of all his colleagues by always being available to help out in any situation, and always happy to do so.

We wish him well in his future, although we are sure that he will succeed in all that he does.

"We would often be sorry if our wishes were gratified."

Versatile, durable and affordable
vacuuming equipment

Model Model	Two Stage Motor By-pass	Volt	Water Lift	Air flow	Tank Capacity	Weight
