All Prices exclude VAT

Sabrina-Foam - ideal for cleaning upholstery. Excellent cleaning results with a quick drying time, it sprays a dense foam onto the surface to be cleaned. The foam does not penetrate the textile, but acts only on the surface where the dirt lies.

Sabrina-Foam Light works just like the Sabrina Foam, but does not contain a compressor necessary to create foam. Compressed air is obtained from an external source.

Sabrina-Maxi is a professional machine for cleaning medium areas of carpet. Strong, compact and easy to carry, this machine is ideal for cleaning companies. Its small width makes it particularly suitable for cleaning trains, buses, cinemas and planes.

Sharon is a self-contained machine, designed for professional cleaning of small areas of both carpet and hard floor. A special device allows to switch from carpet to hard floor cleaning by simply turning a knob.

See back page for more details.

Richards Bay Expo

We exhibited at the expo that was held at the Z.C.B.F Community Business Park, Richards Bay. This show exhibited the latest developments, products and services in the mining sector, power generation, manufacturing and construction industries.

Announcement

Monitor / Hawk has been granted the exclusive distribution rights for HPP Pumps for Southern Africa.

These pumps are the large industrial type delivering up to 1000 bar and up to 300 l/min.

They are interchangeable with most of the Pratissoli pumps, especially on the most popular drain and sewer types.

Meet the staff

We would like to congratulate Charlotte Khuzwayo, a part of our stores team, on the birth of her baby boy, Lindokuhle, who was born on the 13 June 2007.

Doesn't she look happy?

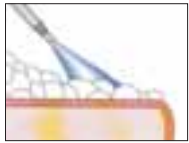

Women Waiting For The Perfect Man

"People are lonely because they build walls instead of bridges"

Versatile, durable and affordable cleaning equipment

SABRINA FOAM

- Recovery tank capacity 14 litres
- Solution tank capacity 14 litres
- Vacuum motor 1000 watt - 2 stages, 2200mm H2O, 50 L/sec
