

New VY Pump Series

A new range of high pressure pumps is available in the Hawk range. The latest 800 and 1000 bar pumps have been thoroughly tested for over a year with no problems recorded. Priced realistically, these pumps are winners.

VY-F 20/800 R-L	1200	20	800	30.1	58

New and Wider Range of Nozzles

We recently exhibited our products at the Electra Mining Trade Show. For the first time we showed a range of our nozzles that generated a lot of interest as we can now supply in the whole of South Africa. The new range includes all the nozzles that we previously imported, and more, at much better prices. The quality is excellent.

Adjustable Coating Gun

This compact size automatic paint and coating spray gun is ideally suited for using with robots or on processing conveyors. The hard-coated gun body is also ideal for applications in the food industry.

The gun can be externally controlled to change from a flat jet to a round jet . Wide choice of nozzle sizes are available. The needles and nozzles of this spray gun are made of stainless steel. Guns can be ordered with the body made entirely of stainless steel.

Spiral nozzles

Full cone

Ultrasonic atomising

Flood fan spray

Flat spray

Air atomising

Air Blow-off jets

Scrubber nozzle

Hollow cone
