

Components for Custom Designed Misting/Fogging Machines

With Hawk's experience in high pressure cleaning, they have now introduced a new range of misting pumps and accessories for cooling systems, humidification, dust suppression, and odour neutralization in residential, commercial, industrial and agriculture applications. It is now possible for Hawk to offer customers the ability to design their own systems.

The pumps meet the most rigorous needs of quality, compactness, low noise and low cost required by the market.

The components include:

1. Water filters complete with accessories
2. Nozzle drain valve
3. Tubing cutter (on application)
4. 3/8" nylon tubing in 25m or 30m lengths
5. 80 cm length nylon straight tubing 3/8" (on application)
6. 3/8" Fitting for nozzle 10/24"
7. 3/8" "L" fitting
8. 3/8" "T" fitting
9. 3/8" end fitting for nozzle 10/24"
10. 0.20 mm Brass/Stainless Nozzle
11. Clamp for 3/8" tubing
12. Brass nozzle plug 10/24"
13. 25 micron Polyethylene filter

Custom Designed Gun

A customer required a gun that would spray two different liquids at the same time. A little bit of imagination resulted in this gun.

Once again, we have proved that we can custom design for customers needs.

Staff News

Meet Kishen. He is the latest member to our stores team. We are employing more efficient staff so that we will be able to add more quality to our service.

We wish him well in his new job.

Nampo Harvest Day Exhibition 12-15 May 2015

One of the largest show of agricultural and industrial machinery products and services in the southern hemisphere takes place outside Bothaville in the Free State.

We will be exhibiting in the Caltex hall, stand no. 36.
